

LUXOR MICRO

iPAD BLUETOOTH WIRELESS KEYBOARD SYNCING GUIDE

Bluetooth LED Indicator

Preparation:

Please fully charge your iPad and Luxor Micro iPad Bluetooth Wireless Keyboard prior to initial usage. For first time users, please charge the Bluetooth Wireless Keyboard for at least 3 hours.

Step 1:

Toggle the **Power Switch** on the Bluetooth Wireless Keyboard to **On**, the power indicator LED will illuminate for 2-5 seconds. The Bluetooth Keyboard will initiate Standby Mode. Press the **Sync Button** on the Bluetooth Wireless Keyboard, the **Bluetooth LED Indicator** shall begin flashing. It is now in Syncing Mode.

Step 2:

With the iPad turned on, open up System Preferences. Click on the General button and select Bluetooth. If Bluetooth is turned Off (Default), swipe the On/Off button to **On**. The iPad will search for all Bluetooth devices within range. Wait for Bluetooth Wireless Keyboard to appear under **Devices**.

Step 3:

Select **Bluetooth Wireless Keyboard** on your iPad to sync with the Bluetooth Wireless Keyboard. When prompted, type the 4-digit code displayed on the iPad screen on the wireless keyboard. The Bluetooth Wireless Keyboard will now be synced with your iPad.
